A report is an account or statement of information in written narrative, tabular, punch card or graphic form, transmitted from one organizational element to another in response to a need for information. A recurring report is one for which there is a standing requirement for its submission at prescribed intervals (daily, weekly, monthly) or periodically on each occurrence of an event or situation of certain prescribed characteristics (e.g., a report of an accident).

3. POLICIES

The Agency Reports Management Program shall be administered on a decentralized basis through Major Component programs governed by the following policies:

- a. Requirements for reports and rescissions thereof shall be in writing.
- b. Only approved reporting requirements shall be established or continued. An approved reporting requirement is one that has been coordinated by an official designated to perform this function, and to which a reports control symbol has been assigned.

- d. The Chief, Records Management Staff, shall coordinate requirements for recurring reports submitted between: (1) Major Components, (2) Major Components and higher echelons, and (3) the Agency and outside organizations.
